

Performance Data (Ref.)	
Voltage	115 Volt 60 Hz
Rotation	CW
Idle Speed	6.5 RPM
Idle Amps	0.44
Rated Speed	6.3 RPM
Rated Torque	15 inlb
Stall Torque	36 inlb
Stall Amps	0.55
Part Number	Spec 2702B

Versatile, Standard Industry Mounting

Heavy Duty Zinc die-cast Housing

Common Industry Output Speed and Torque

Standard 5/16" Diameter Output Shaft with 1-1/8" Extension

High Temperature Ball Bearing and Fan on Motor

Robust Output Flange Bearings and Seal in Gearcase

2 – 9" Long Motor Hook-up Wires

Heavy Duty Geartrain Design

Nylon High Speed Gear for Smooth Operation

Motor release: Purchaser assumes all risk (liability), as motor may not perform to exact specifications set forth by the original equipment manufacturer of the product utilizing a similar gearmotor. This includes, but is not limited to, noise level, torque output, longevity and unsatisfactory performance within a specific end use.
