

Performance Data (Ref.)	
Voltage	120 Volt 60 Hz
Rotation	CW
Idle Speed	1.3 RPM
Idle Amps	0.4
Rated Speed	1.0 RPM
Rated Torque	90 inlb
Stall Torque	200+ inlb
Stall Amps	0.45
Part Number	Spec 9901

Versatile, Standard Industry Mounting

Heavy Duty Zinc die-cast Housing

Common Industry Output Speed and Torque

Standard 3/8" Diameter Output Shaft with 1" Extension

High Temperature Spherical Bushings on Motor

Robust Output Flange Bearings in Gearcase

2 – 12" Long Motor Hook-up Wires

Heavy Duty Geartrain Design

Nylon High Speed Gear for Smooth Operation

Motor release: Purchaser assumes all risk (liability), as motor may not perform to exact specifications set forth by the original equipment manufacturer of the product utilizing a similar gearmotor. This includes, but is not limited to, noise level, torque output, longevity and unsatisfactory performance within a specific end use.
