

Since 1958 Multi Products Company has been servicing the individual sub-fractional gearmotor needs and requirements of our customers with exceptional Quality, Short Lead-Times, and Continuous On-Time Delivery.

Quality Crafted Gearmotors Since 1958

We pride ourselves on the ability to meet the AC and DC gearmotor requirements of our customers and their markets with unsurpassed customer service.

Whether you require an AC shaded pole, brushed DC, stepper, or synchronous gearmotor, give us a call. With 50 years of experience, let us prove ourselves to you!

DAMPER AND STOCK MOTOR SPECIALISTS.....

Multi Products Company has a variety of in-stock and custom manufactured actuator gearmotors for your spring return damper applications.

We have a stock motor program for quick replacement of gearmotors used in various industries.

We have noise reducing synchronous AC gearmotors along with DC stepper gearmotors for use in open loop positioning applications.

With emphasis on quality through cellular manufacturing, we can meet your custom switch, wiring harness, or other value-add assembly needs quickly and efficiently.

Contact us for all your gearmotor and actuator needs!
