

<b>Performance Data (Ref.)</b>	
Voltage	120 Volt 60 Hz
Rotation	CCW
Idle Speed	1.3 RPM
Idle Amps	0.4
Rated Speed	1.0 RPM
Rated Torque	90 inlb
Stall Torque	200+ inlb
Stall Amps	0.45
Part Number	Spec 9901-A

**Versatile, Standard Industry Mounting**

**Heavy Duty Zinc die-cast Housing**

**Common Industry Output Speed and Torque**

**Standard 3/8" Diameter Output Shaft with 1" Extension**

**High Temperature Spherical Bushings on Motor**

**Robust Output Flange Bearings in Gearcase**

**2 – 12" Long Motor Hook-up Wires**

**Heavy Duty Geartrain Design**

**Nylon High Speed Gear for Smooth Operation**

Motor release: Purchaser assumes all risk (liability), as motor may not perform to exact specifications set forth by the original equipment manufacturer of the product utilizing a similar gearmotor. This includes, but is not limited to, noise level, torque output, longevity and unsatisfactory performance within a specific end use.
